Edinburgh Windows & Doors Ltd

From Washington to Scotland: A
Presidential Seal of Trust.

We're thrilled to share an incredible
highlight from our journey at Edinburgh
Windows and Doors

Our team recently had the honour of
installing and later removing ballistic glass
at not one, but two iconic Scottish locations:

Trump Turnberry and MacLeod House, in
preparation for the visit of the President of
the United States.

UNITED STATES
SECRET SERVICE

Edinburgh Windows and Doors are leading the sash window restoration and upgrade project for Fraser suites Edinburgh. All timber sash and case windows in the property are being fully refurbished and brought back to life. The windows in the property have seen minimal repairs over the years, this has led to many windows being out of operation.

Key stats:

156 Windows Restored

7.7mm Thickness

FINEO
by AGC

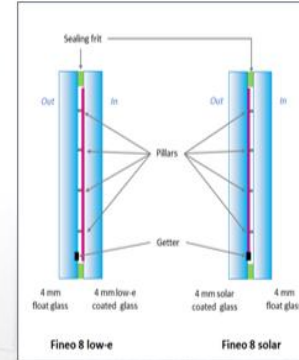

What is Vacuum Glazing?

FINEO
by AGC

Fineo Compared With Other Slim Double Glazing

- Two panes of float glass
- separated by a vacuum gap (~0.1mm)
- micro-pillars on a 20mm grid
- vacuum seal (ceramic technology)
- getter (gas catcher)
- no evacuation port
- low-e or solar control coating

	Overall Thickness	Glass Thickness	Cavity	Gas	U-value	Guarantee	Fineo
Fineo	7.7mm	3.8mm	0.1mm	None	0.7	20 Years	<u>Efficiency Improvement</u>
Other Slim Double Glazing	11mm	3mm	4mm	Krypton	1.9	5 yrs	63%
	12mm	4mm	4mm	Krypton	1.9	5 yrs	63%
	13mm	4mm	5mm	Krypton	1.7	5 yrs	59%
	14mm	4mm	6mm	Krypton	1.5	5 yrs	53%
	16mm	4mm	8mm	Krypton	1.3	5 yrs	46%
